Problem Solving & Coordinated Entry

5CHC's assistance for South County residents begins with a Coordinated Entry Intake, a standardized assessment utilized by Homeless Service Providers throughout the County to ensure a consistent, streamlined experience for those seeking services. This problem-solving process first works to divert people from falling into homelessness by identifying immediate action steps, providing assistance with immediate needs to overcome a one-time barrier and then, if necessary, connects them with services and short-term financial assistance to help stabilize their housing situation. 5CHC's Housing Navigation Center offers access to computer, internet, phone, mailing address, food, and hygiene supplies. **Coordinated Entry Data from Program Year June 1, 2022- May 31, 2023**

Housing Navigation Services

5CHC's housing navigation services are offered throughout San Luis Obispo County to assist resident to regain stable housing after experiencing a housing crisis. Those currently experiencing homelessness and those who are facing a loss of housing receive case management stabilization services and financial assistance for deposit, rent and immediate needs. These programs prevent the loss of housing and aid those who are unhoused with new housing.

Financial Assistance This Month

- Total Deposit: \$1,735
- Avg/ Household: \$1,735
- Total Rent: \$40,764
- Avg/ Household: \$2,717

Outreach Efforts

5CHC's Outreach Program is key to addressing the needs of those who are chronically homeless living in South County, by helping them to navigate a transition to affordable housing and services. To meet this difficult challenge, 5CHC's Outreach Team has specialized knowledge of the issues facing those they serve and "goes to where they are." 5CHC works to provide food and essential services while serving as a bridge to community services such as housing, medical, behavioral health, and substance use disorder treatment. 5CHC partners with County Public Health, A.G. Community Hospital, veteran services, and law enforcement, among others.

Shelter Services

Warming Center - is currently closed for the season. In the 2022-2023 season that ran from November 1 and continu through March 31, 5CHC operated an overnight warming center to provide a safe, warm, and dry place for families and individuals to find shelter on nights with specific forecasts of inclement weather.

Cabins for Change – This is 5CHC's newest program, offering emergency shelter in 20 individual cabins for single adults and couples. This shelter incorporates dignity, compassion and structured guidance via an intensive case-managed, limited-stay program in partnership with the County of San Luis Obispo and City of Grover Beach. The shelter opened Dec. 23, 2022. There is currently a waiting list, with all cabins occupied.
